PROFESSIONAL SUMMARY

Senior Frontend Engineer with 10+ years of experience designing, developing, and delivering scalable web applications, enterprise platforms, SaaS products, and customer-facing systems.

Strong expertise in React, Vue, TypeScript, Next.js, and Nuxt.js, with proven experience in frontend architecture, reusable component systems, performance optimization, design systems, and modern development practices.

Experienced working within cross-functional Agile teams alongside Product Managers, Business Analysts, QA engineers, and backend teams to deliver complex business solutions. Skilled in code reviews, technical leadership, system integrations, real-time applications, AWS infrastructure, and CI/CD pipelines.

Strong full-stack development background using NestJS, Node.js, MongoDB, and SQL databases.

PROFESSIONAL EXPERIENCE

Ruby Next, Bangkok — *Software Engineer*

April 2023 - PRESENT

- Developed and maintained large-scale web applications using Vue.js, Nuxt.js, TypeScript, and modern frontend technologies.
- Collaborated closely with Product Managers, Business Analysts, QA engineers, and backend teams throughout the software development lifecycle.
- Delivered business-critical features through integrations with internal payment services and multiple third-party provider platforms.
- Implemented real-time functionality using WebSocket-based communication and authentication mechanisms.
- Contributed to security-sensitive features, including session management and single active session enforcement.
- Led migration projects from Nuxt 2 to Nuxt 3, improving maintainability, scalability, and developer productivity.
- Participated in cross-team code reviews and provided technical feedback to maintain engineering standards.
- Worked within Agile teams using Jira for sprint planning, estimation, implementation, and delivery.

TECHNICAL SKILLS

Frontend

React, Next.js, Vue.js, Nuxt.js, TypeScript, JavaScript (ES6+), Redux, React Query, Zustand, HTML5, CSS3, Tailwind CSS, Sass, Styled Components, Ant Design, Chakra UI

Backend

Node.js, NestJS, Express.js, REST APIs, GraphQL, Redis

Databases

MongoDB, MySQL, PostgreSQL

Cloud & DevOps

AWS (EC2, S3, CloudFront, Lambda), Docker, GitHub Actions, CI/CD, Nginx, Vercel, DigitalOcean

Testing & Tools

Jest, React Testing Library, Git, Git Flow, Jira, Agile, Scrum, Figma

Additional Strengths

Frontend Architecture, Design Systems, Component Libraries, Code Reviews, Technical Mentoring, WebSocket Integration, Performance Optimization, Production Support, Third-Party Integrations

LANGUAGES

English, Burmese

- Supported QA validation, defect resolution, staging releases, and production deployments.
- Contributed to CI/CD workflows and AWS-based production environments.
- Took ownership of feature delivery from requirements analysis through deployment.
- Leveraged AI-assisted development tools (Cursor AI and GitHub Copilot) for code refactoring, debugging, documentation, and feature development to improve productivity and code quality.

Rocket Digital, Bangkok — Senior Frontend Developer

JAN 2022 - March 2023

- Developed loyalty, CRM, municipal service, and customer engagement applications using React and TypeScript.
- Designed and developed reusable frontend boilerplates adopted across multiple projects.
- Built shared component libraries to improve consistency and development efficiency.
- Contributed to company-wide design systems and frontend architecture standards.
- Developed Progressive Web Applications (PWA) to improve accessibility and user experience.
- Collaborated with designers, backend engineers, and stakeholders to deliver scalable business solutions.
- Participated in code reviews and technical discussions to ensure code quality.

Oway Travel & Tour, Yangon — Senior React Developer

MAY 2019 - DEC 2021

- Led frontend development for travel booking, ticketing, e-commerce, and operational management platforms.
- Designed scalable frontend architecture using React and modern JavaScript technologies.
- Integrated payment gateways and third-party services for booking and transaction processing.
- Developed reusable component systems and team development standards.
- Managed AWS services, deployment pipelines, and microservice integrations.
- Reviewed pull requests and provided technical guidance to maintain development quality.
- Developed React Native applications supporting ticketing and operational workflows.
- Worked closely with UI/UX teams to deliver responsive and user-friendly experiences.

CarsDB, Yangon — *web developer*

JULY 2017 - APRIL 2019

- Developed customer-facing and administrative applications for a vehicle marketplace platform.
- Built responsive, mobile-first interfaces for web and mobile users.
- Improved application performance and maintainability through component refactoring and optimization.
- Collaborated with product teams to deliver new business features and enhancements.
- Developed media-related web platforms and internal operational tools.

EazyTickets Asia, Yangon — *Web developer*

JUNE 2016 - MAY 2019

- Developed ticketing platforms and logistics-related web applications.
- Built real-time tracking functionality and business management features.
- Contributed to both frontend and backend development using JavaScript-based technologies.
- Participated in application design, development, testing, and deployment activities.

SELECTED PROJECTS

PSI Myanmar– Digital Coupon Management System (Freelance / Contract)

Role: Technical Lead / Full Stack Developer

Tech Stack: React (Next.js), NestJS, MongoDB, Redis, AWS / Fly.io

- Led end-to-end delivery of a digital coupon management platform for a healthcare organization, from requirement analysis through production deployment.
- Collaborated directly with client stakeholders to gather business requirements, refine workflows, and translate business needs into technical solutions.
- Built and led a cross-functional team by recruiting and coordinating a UI/UX Designer and two Software Developers.
- Planned the project architecture, defined development workflows, assigned tasks, and tracked project progress to ensure timely delivery.
- Developed key frontend and backend features while providing technical guidance, code reviews, and implementation support across the team.
- Refactored and enhanced the existing platform with reusable components, modular architecture, and improved maintainability.
- Optimized API integration, frontend state management, and overall

application performance.

- Integrated Redis for caching, session management, and improved system scalability and responsiveness.
- Coordinated testing, deployment, and post-release improvements with both the client and development team.

ThaiWah Operation Platform

Tech Stack: React, TypeScript, NestJS, AWS

- Enterprise operational management platform supporting business workflows and internal operations.

Loyalty & CRM Platform

Tech Stack: React, TypeScript, MongoDB

- Customer loyalty platform supporting rewards, benefits, customer engagement, and relationship management.

Oway Travel

Tech Stack: React, Node.js, AWS

- Travel booking platform supporting flights, hotels, tour packages, and online transactions.

CarsDB Marketplace

Tech Stack: React, Node.js, MongoDB

- Vehicle marketplace platform with customer-facing applications and administrative systems.

EDUCATION

University Mandalay, Yangon — M.C.Sc

2013 - 2016

Master Computer Science (software and Data Mining)

University Mandalay, Mandalay — Bachelor Degree

2010 - 2013

Computer Science
